Outstanding Strawberry

"Surecrop"

We are featuring this variety again on the front cover of our catalog since we are still of the opinion it is one of the best all-around strawberry introductions. A release from the U.S.D.A. producing an abundance of fruit over a long period of time. A midseason variety with very large extra firm berries with flavor compared to Pocahontas. Red-stele resistant. Our stock is grown from U.S.D.A. virus-free plants. Prices: 25 for \$1.45; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50. 50 for \$2.35

A Word from Our President

Growing good trees and plants, and properly digging and packaging them for shipment to our customers, is the reason for the continued growth of our business.

We are always alert to the fact that our customers are the life of our business and are entitled to nothing less than the best in quality of merchandise and service.

Each year we do considerable experimenting to learn first hand from actual experience how to grow the best. We are an old established concern and facilitated to supply you with one of the most complete assortments of good trees and plants at reasonable prices.

Careful handling of your orders for nursery products by an experienced organization means much since the product is somewhat of a perishable nature; this we want you to keep foremost in mind when doing business with us.

We thank you for the business entrusted to our care in the past, and assure you satisfaction when doing business with us.

Sincerely,
CLAYTON A. BUNTING

THIS OFFER IS GOOD ON ORDERS RECEIVED ON OR BEFORE MARCH 15th. YOUR GIFT SELECTION MUST APPEAR ON YOUR ORDER UPON ITS RECEIPT OR NONE WILL BE SENT.

"BUNTINGS PLANTS ARE OF THE HIGHEST QUALITY"

The photographs on this page, we believe, will help our customers realize the extra care afforded and the extra work involved in the production of disease-free strawberry plants that we supply for you when you place your orders with us for strawberry plants.

It is probably natural for you to assume that strawberry plants are just set in our growing fields for one year, dug and sent along to you. Actually, this is only a part of the program which begins in special greenhouses where plants are checked to be sure they are of first quality and free from diseases. An interior view of the screenhouse is pictured at right. From the greenhouses, the plants are then transplanted into the screenhouse where, under the protection of a screen cover, disease-carrying insects cannot enter. This gives further protection from disease during the growing season the plants are inside. The following season, the plants are set in our growing fields in chemically treated soil. At this time, they are grown under a strict spraying and dusting program for continued control of insects and disease.

In all three phases of this operation, the plants are carefully checked. All this adds up to quality. It is a word which can be said easily but we want you to know the true meaning of the word in regard to the plants we are supplying.

"SUMMER PLANTING OF STRAWBERRY PLANTS"

We are facilitated to handle orders during the late spring and summer. For many years, we have been supplying commercial growers with plants from our cold storage because they are busy with other crops during the spring planting time. This has proven very successful and should it not be convenient for you to plant in the spring, we would be glad to set plants aside for later delivery. The plants should be set before the middle of August in order that they may become established before cold weather. If the ground is dry, facilities should be available to water them when they are planted. We would be glad to reserve some plants for you.

HOW TO ORDER

ORDER NOW—We Will Ship at Planting Time in Your Area or at Date During Planting Season You Specify

We have tried to make ordering from BUNTINGS' very easy. We think you will agree that it is.

Use order blank enclosed, it is convenient and avoids mistakes, envelope is also enclosed.

Order early before stock is sold, we will reserve plants for you.

Take advantage of special collections offered throughout our catalog. They are real money savers designed for best selections.

Telegraph or telephone us at Selbyville, Delaware. Phone Selbyville 436-8231.

HOW TO REMIT

Please send check or money order with your order. Remittance in full saves you money by eliminating costly C.O.D. fees. We do not wish that you spend money for extra handling charges by the Post Office or Express Co. C.O.D. orders will be accepted if 25% of the cost of plants is included with order.

REFERENCES

We refer you to Dun & Bradstreet, Inc., Baltimore Trust Co. of Selbyville or any business house in or around Selbyville.

Prices quoted are f.o.b. Selbyville, Del. We will request actual amount of postage required to make shipment after shipment has been made.

HOW TO PLANT

1. **PLANT AT ONCE.** If this is not possible, plants may be stored for a few days in cool damp location.
2. **WATER THOROUGHLY** immediately after planting, also during dry periods of the growing season. Lack of sufficient moisture is one of the main reasons for growth failures.
3. **DO NOT OVER-FERTILIZE.** Too much fertilizer will injure or even kill plants. Follow directions carefully and water thoroughly after applications.
4. **WORK THE SOIL OFTEN** with a hoe or rake. This controls weeds and retains vital life giving moisture.

Partial view of the interior of one of our greenhouses showing virus indexed and breeding of Strawberry plants.

All the varieties in the above price schedule have been grown from virus-free foundation stock originally furnished by the U.S.D.A. at Beltsville, Maryland except those marked with an (*). We have our own greenhouse and screenhouse which enables us to carry on our virus-free program of producing top quality plants for our customers. All plants have been grown under a strict dusting schedule and are as free from disease and insects as any available today.

WRITE FOR SPECIAL PRICES ON LARGE NUMBERS OF STRAWBERRY PLANTS

GROWING STRAWBERRIES PROFITABLY

Planting Time

Northern States—April and May.
Central States—March, April and May.
Southern States—February, March and April.
If you cannot conveniently plant during this time you may plant during the summer months until August 15th by using the dormant plants that we supply. See page 4.

Plants referred to as "virus-free" in this catalog have been field-grown by us from virus-free foundation stock furnished by U.S.D.A., Beltsville, Md. Our field-grown stock has been dusted with parathion to control aphids which transmit the virus disease. They have also been grown at considerable distance from any other Strawberry plants. Since virus does not produce clear-cut symptoms in most Strawberry varieties but simply weaken and devitalize the plants, no guarantee can be made that these plants are 100% free of virus. Because of the measures that we have used to protect these plants from virus infection, we believe them to be substantially virus-free.

Setting Plants

Clip the roots if they can't be planted without doubling. The plant should be set with the crown about even with the soil after it has been thoroughly firmed around the plant.

Type of Soil

Select a plot springy in nature but well drained and free of vegetation. Moisture is essential. The land which you contemplate setting to Strawberries should be kept as free from vegetation as possible during the previous year. If the land has been lying idle, plow late in summer before the weeds and grass develop seed to maturity. Heavy crops of Cow Peas, Soy Beans, etc., if plowed under in late summer while green, increase the humus and fertility of the soil, making it loose and porous; therefore, more retentive of moisture.

Soil Preparation and Fertilization

Prepare soil same as for truck garden crops. Lay out rows, usually 3½ to 4 feet apart; set plants about 15 to 18 inches apart in the rows. Do not use commercial fertilizer at the roots. If soil is fertile we do not recommend using any type of fertilizer when planting. After the plants have been set in the row, a light application of fertilizer may be applied around the plant and worked into the soil with a hoe. Do not allow the fertilizer to fall on the leaves of the plant. During the growing season additional applications of fertilizer may be applied if the soil is not reasonably fertile.

The following September after plants have been set, just before mulching, if mulching is necessary in your area, apply a good grade of commercial fertilizer carrying an analysis of 5 per cent ammonia, 6 to 8 per cent phosphoric acid and 10 per cent potash, broadcast on the row of the plants, at the rate of 15 to 20 pounds per hundred yards of row space.

Cultivation

Keep Rows Free of Vegetation.

As soon as the plants are set in the spring, cultivation should begin, and should be continued whenever weeds start or a crust forms. Frequent shallow cultivation will make it unnecessary to do much hand hoeing or hand weeding.

Mulching

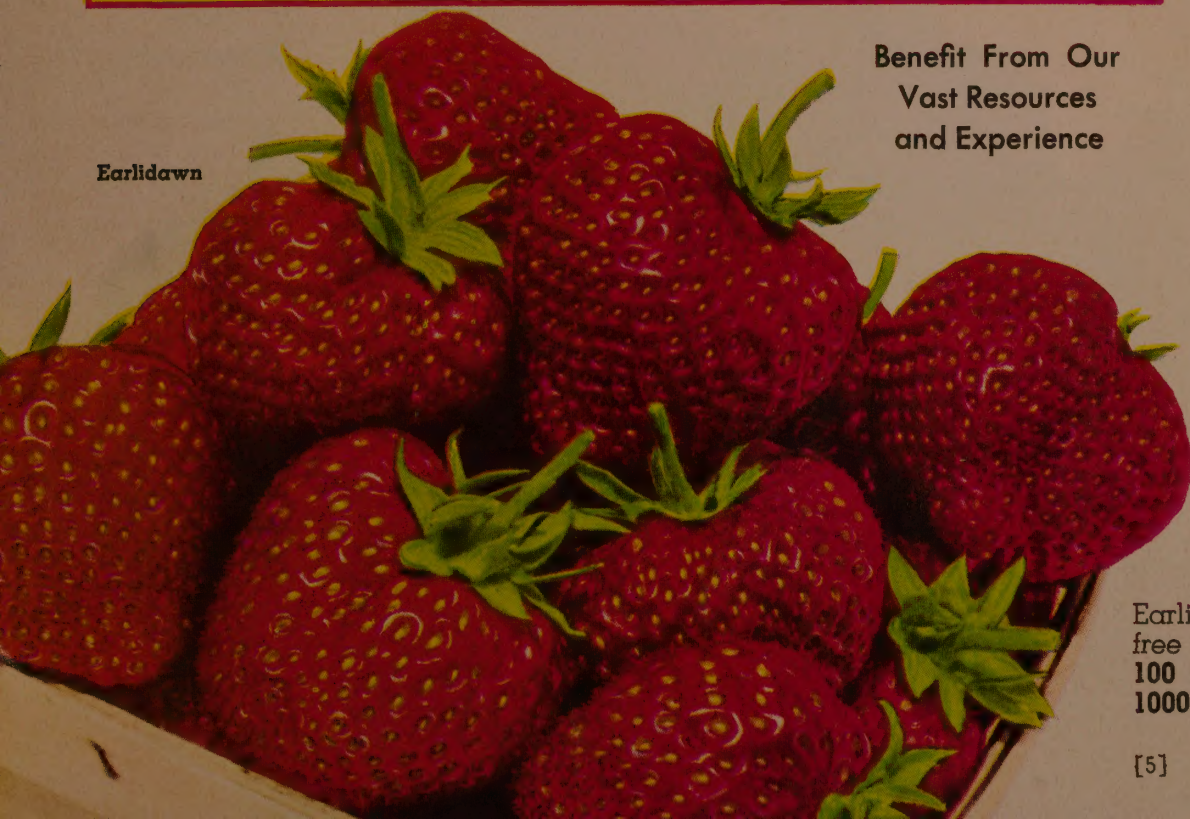

After the first freeze during fall months, wheat or rye straw may be applied over the rows of plants for winter protection. Early in the spring, before growth starts, it should be removed from the bed of plants and replaced between the rows to retain moisture and keep berries clean.

EARLIDAWN

This luscious berry will be a taste pleaser for all. It is the earliest of all to ripen and yields from tests made prove it to be very productive. This highly colored and textured berry is also considered excellent for freezing. Our Earlildawn is a strain of the U.S.D.A. virus-free plants. Prices: 25 for \$1.50; 50 for \$2.50; 100 for \$4.00; 250 for \$8.00; 500 for \$12.50; 1000 for \$20.00; 5000 for \$97.50.

✓ SPARKLE

A vigorous grower and very productive. Berries are somewhat round in shape, of excellent quality and splendid for freezing. Our Sparkle is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.35; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50.

Sparkle

BUNTINGS' Dependable

✓ DIXIELAND

Good for Freezing

An introduction of the North Carolina Agricultural Experiment Station. This is a very firm berry with excellent keeping qualities which makes it a truly excellent shipper and also good for freezing. A genetic variegation (Spring yellows, June yellows) has developed in this variety. This is not a virus. Plants are weakened and yields are reduced. There are no known sources of Dixieland free from spring yellows but attempts are being made to locate non-yellowing stock. Thus, we can make no guarantee as to the performance of Dixieland. Our Dixieland is a strain of U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.35; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50.

Dixieland

REDGLOW

A recent introduction of the U.S.D.A. An early berry of highest quality. This variety was well named because of its glowing, vivid-red color. The berries average large in size and will maintain large average size throughout the picking season.

Redglow is a red-stele resistant variety with excellent flavor that we highly recommend you plant. Our Redglow is a strain grown from U.S.D.A. virus-free plants.

Prices: 25 for \$1.50; 50 for \$2.50; 100 for \$4.00; 250 for \$8.00; 500 for \$12.50; 1000 for \$20.00; 5000 for \$97.50.

There IS a Difference in VIRUS-FREE Strawberry Plants

Buntings' foundation planting stock is grown from plants started each year from our greenhouse and screenhouse. Following this procedure year after year, we maintain for our customers the highest possible degree of freedom from virus and other diseases. Unless growers set plants of this type, there is much less assurance of this substantial freedom from disease. Increase your chances for a more profitable crop by setting Buntings' quality Strawberry plants.

SUMMER SHIPMENT

We are facilitated with modern cold storages enabling us to hold strawberry plants in excellent dormant condition for summer shipment. See page 4 for details.

The Strawberry
of Exceptional Merit

JERSEYBELLE

A berry of unusual size and fine quality. A favorite with the commercial growers and home gardeners in all sections of the country where it has been grown. Our honest opinion is that it is the best late variety on the market today. Our Jerseybelle is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.40; 100 for \$3.90; 250 for \$7.80; 500 for \$12.30; 1000 for \$19.50; 5000 \$95.00.

ROBINSON

Ripens just after Premier, at a time when berries bring a good price. Berries are large, brilliant red, uniform in size. Vigorous grower and a heavy yielder. Our Robinson is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.40; 50 for \$2.30; 100 for \$3.70; 250 for \$7.40; 500 for \$11.55; 1000 for \$18.50; 5000 for \$90.00.

Specialists

Jerseybelle

Catskill

Buntings' SUPERIOR

Specialized "KNOW-HOW"
and QUALITY CONTROL
Make the
BIG DIFFERENCE!

CATSKILL Almost Frost Proof

An outstanding midseason variety becoming more popular every year. Produces large, strong plants, makes an ideal fruiting bed. Berries large in size, bright red color. Equals Premier in flavor and carries a bright green cap. Firm enough to reach the market in excellent condition. Considered almost frost-proof, can be depended upon to produce annually bumper crops. Our Catskill is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.35; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50.

Number of Plants Required to Set an Acre at Various Distances

Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill which divided into the number of square feet in an acre (43,560) will give the number of plants or trees to an acre.

1 x 1 ft.	43,560	4 x 1 ft.	10,890	6 x 1 ft.	7,260
2 x 2 ft.	10,890	4 x 1½ ft.	7,260	6 x 2 ft.	3,630
3 x 1 ft.	14,520	4 x 2 ft.	5,445	7 x 1 ft.	6,222
3 x 1½ ft.	9,900	5 x 1 ft.	8,712	7 x 2 ft.	3,111
3 x 2 ft.	7,260	5 x 2 ft.	4,356		

TENNESSEE BEAUTY

Very productive, midseason variety with exceptionally good shipping qualities and wonderful flavor. Has been planted more extensively each year and now is a leader and highly recommended by commercial planters as well as small gardeners. Our

Tennessee Beauty is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.40; 50 for \$2.30; 100 for \$3.70; 250 for \$7.40; 500 for \$11.55; 1000 for \$18.50; 5000 for \$90.00.

Beauty

POCAHONTAS

Those Who Have Tried It Know It's Good
EXCELLENT SHIPPER - FREEZER

A comparatively new introduction of the U.S.D.A. at Beltsville, Md., and the Virginia Truck Experiment Station, Norfolk, Va. A large, deep red berry is produced from the exceptionally vigorous plants. Highly flavored. A leader due to its strength and productiveness. Our Pocahontas is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.35; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50.

Pocahontas

Quality Controlled STRAWBERRY PLANTS

✓ Empire

LARGE SIZE • GOOD FLAVOR

An introduction of the New York State Experiment Station as a real challenger of Premier. Berries average extra large in size, very attractive and of excellent quality, and holds its appearance well, making an excellent shipping berry. Very vigorous grower; withstands adverse growing conditions. **Prices:** 25 for \$1.45; 50 for \$2.40; 100 for \$3.90; 250 for \$7.80; 500 for \$12.30; 1000 for \$19.50; 5000 for \$95.00.

THERE IS A DIFFERENCE IN VIRUS-FREE STRAWBERRY PLANTS. Buntings' foundation planting stock is grown from plants started each year from our greenhouse and screenhouse. Following this procedure year after year, we maintain for our customers the highest possible degree of freedom from virus and other diseases. Unless growers set plants of this type, there is much less assurance of this substantial freedom from disease. Increase your chances for a more profitable crop by setting Bunting's quality Strawberry plants.

✓ STELEMASTER

An introduction of the U.S.D.A., Beltsville, Md., because of its resistance to red stele. Ripens about the same time as Blakemore. Berries are uniform, smooth and of good size. Flesh is light red, juicy, and firm, with flavor mildly sub-acid. Plants are very vigorous and productive, also its resistance to disease will meet demands and develop its popularity. Our stock is a strain grown from the U.S.D.A. virus-free plants. **Prices:** 25 for \$1.40; 50 for \$2.30; 100 for \$3.70; 250 for \$7.40; 500 for \$11.55; 1000 for \$18.50; 5000 for \$90.00.

Stelemaster

Empire

✓ FAIRFAX

Early. The quality berry. A favorite in quality, flavor and productiveness. Widely known and planted. The berries are exceptionally large all through the fruiting season, and very firm. Plant Fairfax for its superb flavor, large size and universal demand. Our Fairfax is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.35; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50.

Buntings' Top Quality EVERBEARERS

Wonderful Varieties, Tried and Tested

SUPERFECTION NEW — VIRUS-FREE

This large, round berry, red to the center, has a sweet, pleasing flavor and is delicious to eat fresh, canned, preserved, in jams and jellies, or fresh frozen. Bears an abundance of large berries throughout late summer and fall. We believe it is the best everbearer ever introduced, and highly recommend them. **Prices:** 25 for \$2.40; 50 for \$4.00; 100 for \$6.40; 250 for \$12.80; 500 for \$20.00; 1000 for \$32.00; 5000 for \$157.50.

SUMMER PLANTING

We are facilitated with modern cold storages enabling us to hold strawberry plants in excellent dormant condition for summer shipment. See page 4 for details.

GEM NEW — VIRUS FREE

One of the leading everbearing varieties. Bright, attractive berries of good size and uniform shape. Plants very productive and hardy. Bear abundantly and have pleasing flavor that will be enjoyed by all. **Prices:** 25 for \$2.40; 50 for \$4.00; 100 for \$6.40; 250 for \$12.80; 500 for \$20.00; 1000 for \$32.00; 5000 for \$157.50.

OGALLALA

This wonderful new everbearing variety was developed at the U.S. D.A. Horticultural Station in Cheyenne, Wyoming and at the North Platte Experimental Station of the University of Nebraska. We tested the variety here in the East before offering it in our catalog to you. It establishes a good bed of plants and the fruit is very large and has a very rich sweet flavor and color. They are highly recommended for eating fresh, freezing or preserving and produces well during the Spring, Summer and Fall. **Prices:** 25 for \$2.40; 50 for \$4.00; 100 for \$6.40; 250 for \$12.80; 500 for \$20.00; 1000 for \$32.00; 5000 for \$157.50.

OZARK BEAUTY

Here is another splendid everbearing variety developed in the West and tested by us before offering to you. We have found it to be truly outstanding and believe it will soon become one of the leading everbearing varieties in a very short time. It produces large, firm luscious red berries. You'll enjoy picking fresh, fully ripened fruit from a patch in your own garden. **Prices:** 25 for \$2.60; 50 for \$4.35; 100 for \$7.00; 250 for \$14.00; 500 for \$21.85; 1000 for \$35.00; 5000 for \$172.50.

The All Red Streamliner

New—Virus-Free
 LARGE FIRM BERRIES

Generally conceded to be one of the best everbearing Strawberries offered today. Has pleasing flavor, rich red color throughout; excellent for eating fresh, canning or freezing. **Prices:** 25 for \$2.40; 50 for \$4.00; 100 for \$6.40; 250 for \$12.80; 500 for \$20.00; 1000 for \$32.00; 5000 for \$157.50.

(some not pictured)

VERMILION

Introduced by the University of Illinois. A berry of very good size and fine quality. Superb flavor and very productive. Ripens late-midseason. Our Vermilion is a strain grown from U.S.D.A. virus free plants. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$87.50.

WRITE FOR PRICES ON LARGER QUANTITIES

Vermilion

ALBRITTON—An introduction of the North Carolina Experiment Station. Plants are very productive in tests from Maryland south and it has become very popular in this area. Berries are large with rich red color and ripen early. Our Albritton is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$87.50.

MIDWAY—A new release by the U.S.D.A. and the Maryland Agricultural Experiment Station. This quality berry is a cross between Dixieland and Temple and is recommended as a replacement for Temple and Fairland. Fruit is of good size and maintains good size during the picking season. It ripens midseason about with Temple. Good for freezing and has good dessert flavor, dark glossy red color, firm skin and flesh and will withstand long distance shipping. Our Midway is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.45; 50 for \$2.35; 100 for \$3.80; 250 for \$7.60; 500 for \$11.85; 1000 for \$19.00; 5000 for \$92.50.

PREMIER—Premier was introduced many years ago as Howard 17. The Berry is still very popular although it has been replaced to some extent by other newer varieties. Fruit is large and holds its size well throughout the ripening season. Recommended for home use or local sales. Our Premier is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.40; 50 for \$2.30; 100 for \$3.70; 250 for \$7.40; 500 for \$11.55; 1000 for \$18.50; 5000 for \$90.00.

VESPER

This exciting variety was developed by the new Jersey Small Fruits Council. A cross between Utah Shipper and Jerseybelle. It ripens with Jerseybelle and extends just beyond Jerseybelle season. We have experienced a strong demand from commercial growers in New Jersey for this variety. We believe it will become one of the

Premier

Armore

most popular late varieties in a few years. **Prices:** 25 for \$2.25; 50 for \$3.75; 100 for \$6.00; 250 for \$12.00; 500 for \$18.75; 1000 for \$30.00; 5000 for \$147.50.

ARMORE—Very Productive. Introduced by the Missouri Experimental Station, this variety has proved more productive than many others in actual tests. Berries are of good size, a beautiful red and of excellent flavor; a firm good keeping, good shipping variety. Our Armore is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$87.50.

MIDLAND—Beautiful, very large berries of deep, glossy red color. Very good dessert quality; mildly sub-acid. These qualities make Midland a most attractive frozen product with that fresh-off-the-vine goodness. Our Midland is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.50; 50 for \$2.50; 100 for \$4.00; 250 for \$8.00; 500 for \$12.50; 1000 for \$20.00; 5000 for \$97.50.

BLAKEMORE—Excellent for shipping. A healthy, vigorous growing variety, that yields big crops of berries. Will stand 2 or 3 days without over-ripening. Foliage is healthy and stands up well during drought. Fruit is firm, of good color and is excellent as a long-distance shipping berry. Ranks high in productiveness. To get all that you are entitled to from Blakemore, do not allow them to mat too thickly in the rows during the growing season. Our Blakemore is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$72.50.

Blakemore

Indian Summer

INDIAN SUMMER

Giant Red Everbearer

The best everbearing Red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape and of extra large size. The greatest all-purpose Raspberry. The fall crops, when Raspberries are scarce and therefore highly prized, are heavier than the earlier ones.

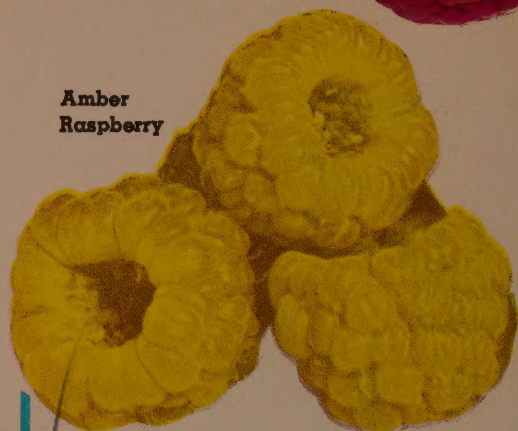

Latham

LATHAM

The productiveness and resistance to disease of this popular midseason to late Red Raspberry has attracted the attention of growers everywhere, and, in the Northwest, the great berry growing section of America, growers are enthusiastically planting it heavily each year. Extremely hardy, cold weather seems to have no effect on its outstanding bearing ability. Plants are vigorous growers, highly resistant to insects, mosaic free and start ripening in mid-season and continue an unbelievably long time. Berries are extra large, beautifully colored rich dark red, and good flavored.

Amber Raspberry

AMBER RASPBERRY

Not only is the rich, unusual golden color of this berry appealing but it possesses outstanding sweet flavor to be enjoyed by all. An introduction of the New York Experimental Station.

Buntings' Remarkable Raspberries

CUMBERLAND

The Black Raspberry

In Blacks—your best bet. Produces large, jet-black fruit, firm and of excellent quality, sweet and mild, ripening in midseason and continuing for two weeks. Extensively planted for commercial purposes and for table use. Fruit is large, plump and juicy, with a true "Blackcap flavor" all its own. Because of its extremely firm texture, Cumberland is an ideal shipper. No Black Raspberry has ever been grown as extensively as Cumberland nor attained its great popularity in all Raspberry producing sections of the country.

TAYLOR

The Northern Special

Considered the best of the reds for New York and northern areas. Vigorous, hardy, productive. Sturdy canes hold berries well off the ground. The berries are bright red, firm and excellent quality.

WORDEN. Vines are hardy and productive. Grapes are very large, thin skin with fine flavor; blue-black color and fine for home or market.

CATAWBA. Keeps better than any Grape in cultivation. Dark copper colored, large berries ripen late, can be kept in good condition for some time.

NIAGARA. A quality white Grape; does not crack easily. The fruit cannot be surpassed in beauty. The worthy Queen of King Concord.

CONCORD. The leading all-purpose Grape. Vigorous growing, hardy and very productive. Ripens mid-season and known as the best money-maker commercial variety. Is unsurpassed by any other variety.

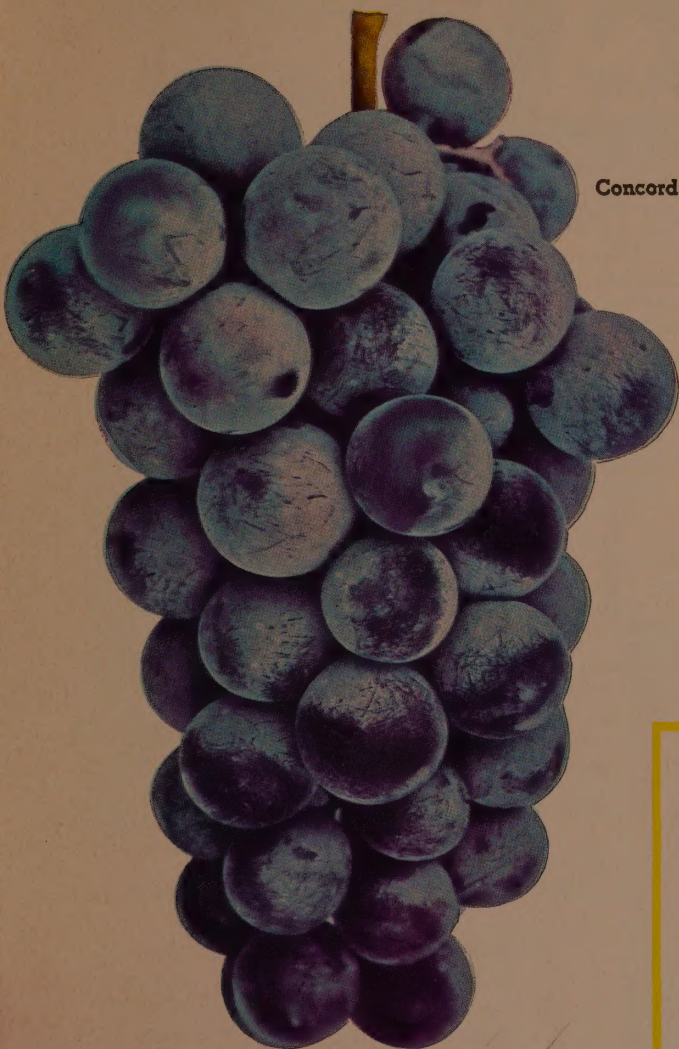

PORTLAND. One of the best leading white Grapes. Vines are vigorous and very productive. Fruit ripens extra early. A variety we know you will want to try.

FREDONIA. Black with heavy bloom, clusters about medium, berry is large, very early. This variety is comparatively new and very promising.

BERRIES

EBONY KING BLACKBERRY

A New Upright Blackberry

Here's good news for Blackberry lovers. The new EBONY KING has been tested for several years, and is a sure-bearing variety. It is very hardy, having withstood temperatures of 22 degrees below zero. The berries are very sweet, and have the wonderful delicious Blackberry flavor. Bears annually and early in the season before hot weather sets in. Self pollinizing. **Prices:** Heavy, 1-yr., No. 1 plants, 5 for \$3.00; 10 for \$4.50; 25 for \$8.25; 100 for \$24.75.

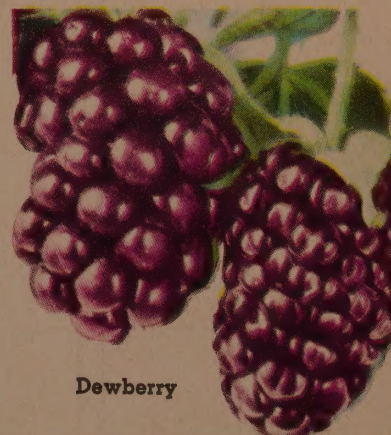

BOYSENBERRY

10 Plants for \$2.70

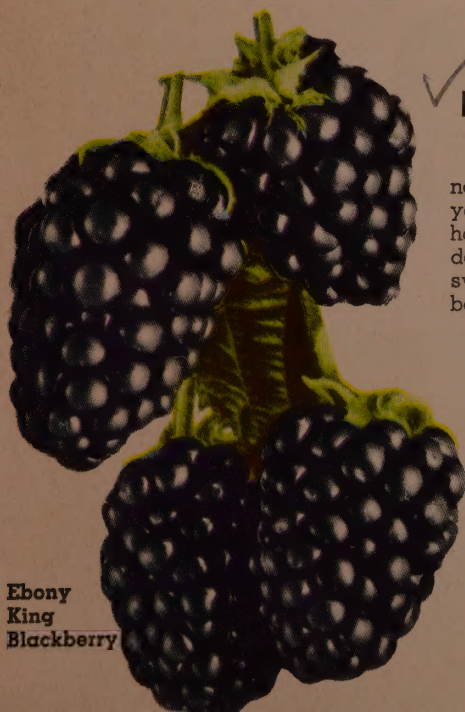

A cross between the California Loganberry, Raspberry and Blackberry. Its size is unbelievable—two inches long is not unusual, three inches long not rare. Fifty of these plump, inch-thick marvels will fill a quart basket. Bunting's hardy No. 1, strong-rooted plants bear big crops the second year. **Prices:** 3 for \$1.35; 6 for \$2.15; 10 for \$2.70; 25 for \$4.95; 100 for \$14.00; 500 for \$48.85.

DEWBERRY

LUCRETIA. Extremely productive. The berries are extra large, black in color, flavor rich, sweet and delicious. Dewberries are of the Blackberry family, but produce on a trailing vine instead of an upright bush, and bear earlier in the summer. Lucretia berries are firm and of excellent quality. **Prices:** 10 for \$2.40; 25 for \$4.95; 50 for \$8.55; 100 for \$14.85.

ROBERTS STRAIN MARY WASHINGTON

- ★ Crowns Produced From Selected Seed ★ Heavier Yields
- ★ More Rapid and Vigorous Growth ★ Extra Large Spears

This new strain of Mary Washington (selected and developed by Mr. J. L. Roberts) is now being planted almost exclusively here in the East by commercial growers and canners. Roberts' Strain has been developed from original Mary Washington by selection, to produce a new type possessing very large spears, heavy yields and great vigor, which prevents the ravages of rust. For years our supply was sold early to large nearby planters. Our production of this strain has been greatly increased to meet the heavy demand over the entire country. Again this year we have reserved a part of our stock for our mail order customers. We recommend that you order early, we will reserve your plants for you until shipping time.

APRICOTS

They Grow Like Peaches

EARLY GOLDEN. Pale orange, juicy and sweet. A hardy, prolific bearer, ripening in July.

MOORPARK. Orange-yellow fruit with red cheek.

3 to 4 ft., \$2.00 each; 10 or more, \$1.80 each. 4 to 5 ft., \$2.20 each; 10 or more, \$1.95 each. 5 to 6 ft., \$2.60 each; 10 or more, \$2.15 each.

Apricots

Rhubarb

RHUBARB or PIEPLANT

CANADA RED RHUBARB. You'll want some of this red, sweet Rhubarb. The new seedless variety, grown from divisions. Out-yields and takes less sugar than Myatt's Linnaeus. Mildly acid, bears stalks up to 2 feet tall, red all the way down. **Prices:** No. 1 divisions, \$1.00 each; 3 for \$2.75.

MYATT'S LINNAEUS RHUBARB. Early large, tender and good quality. **Prices:** 2-yr., No. 1 plants, 30c each; 3 for 85c; 10 for \$2.50.

ORANGE QUINCE TREE

Fruit is large, golden yellow, and of excellent quality; ripens early in September. Splendid for jellies and preserves. A dwarf type tree, growing about 10 to 15 feet tall, requiring but little space. **Price:** 3-4 ft., strong trees, \$1.80 each.

Yellow
Delicious

Connell
Red

APPLES

Grown by Bunting

YELLOW DELICIOUS. This alluring Apple with the strong appetite appeal never fails to capture the elusive nickel on the fruit stands. It is a national favorite, commanding highest prices on the market. A bright golden yellow, firm, crisp, juicy Apple. Trees bear when young, and yield heavily.

BALDWIN. For many years Baldwin has been a favorite with commercial orchardists for their northern markets. Highly regarded as an eating and cooking Apple, having a flavor all its own.

WILLIAMS EARLY RED. Among the earliest and largest of all early Apples. Trees come into bearing when quite young, producing freely and steadily. The Apple is large, with tender, crisp, white flesh, juicy, slightly tart.

LODI (Improved Yellow Transparent). A summer Apple ripening about the same time as regular Transparent; however, much larger and more firm than Transparent. Fruit good size, skin clear white to pale yellow in color. Flavor very good. An excellent cooking Apple. Tree a very strong grower.

GRIMES GOLDEN. Very large skin golden yellow, flesh tender and crisp. A very good fall Apple. Grown in all sections of the country.

ALL RED DELICIOUS. This improved new Red Delicious colors a very rich red three or four days in advance of any other strain of Delicious Apples. It is not only a commercial Apple, but is every bit as well adapted to home gardens. A superior, large, uniform Apple, rich in flavor, with a characteristic five-knob appearance that makes it attractive in every market.

CONNELL RED

(Plant Pat. No. 1602)

A dessert Apple with excellent cooking qualities. The large, tantalizing, rich red fruit is extremely hardy, having withstood temperatures of 40 degrees below zero. It bears when young, producing heavily around the Delicious season. Tests made under regular cold storage conditions have proved it has amazing storage life, retaining its delightful flavor and does not become mealy.

Fruit growers interested in planting trees in larger quantities, write for special prices.

SOLID RED McINTOSH. A selected bright red sport of the reliable old McIntosh. Flesh white, tender, juicy, sub-acid. Tree hardy, vigorous, healthy. Leading commercial variety, especially desirable for fancy trade.

DOUBLE RED JONATHAN. Insure your profits from Jonathan by planting this new sport that will give you bright red colored fruit about two weeks earlier. Fruit medium to large, brilliant red, juicy, fine grained, tender and very highly flavored.

DOUBLE RED STAYMAN WINESAP. At least double the color of the original strain of Stayman Winesap, otherwise exactly the same growth, hardness, etc. We have discontinued propagating the regular variety of Stayman Winesap in view of the fact that we get the same quality in Double Red Stayman with double the color which sells the fruit for more money.

Order *Buntings'* A Triumph in Luscious

These Dwarf type trees are pleasing so many home gardeners each year. Just picture yourself picking fruit from these trees the next year after planting. The fruit is delicious and of **regular size**. Plant two or more for cross pollination. We know that you will be pleased with our dwarf trees.

DWARF APPLE TREES

Yes, it is true, you can pick full size Apples from our trees. Great pleasure can be had by observing and of course picking delicious, tasty fruit right at your home. They grow only about 12 feet high and really produce, usually during the second year. Start your own orchard, spacing them about 15 feet apart. The varieties listed below are ones we know you will really enjoy. Your choice of the following:

Grimes Golden
Red Stayman

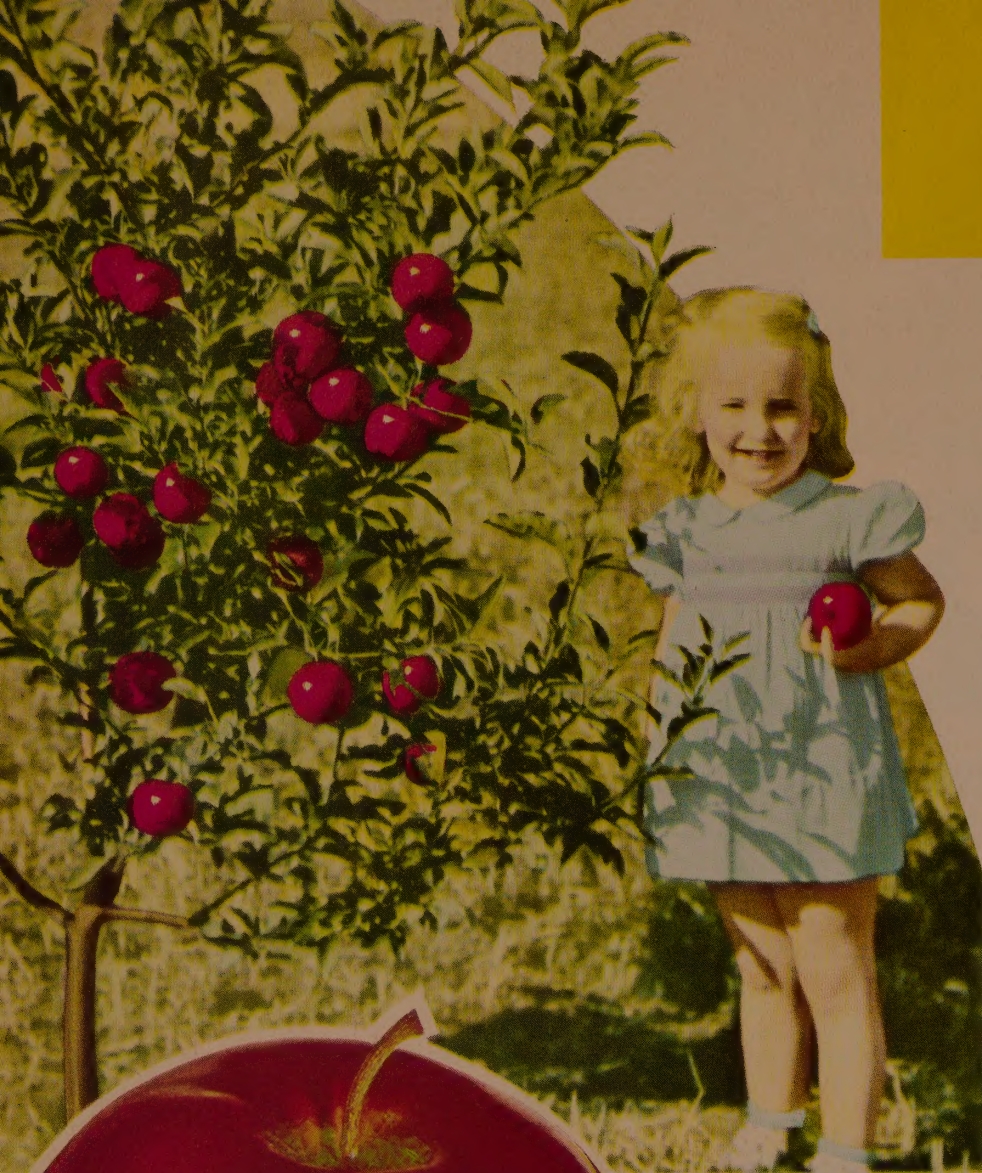

Super Red McIntosh
Yellow Delicious

Red Delicious

Prices: 2-yr., 3 to 4 ft., \$2.75 each; 3 for \$7.50.

LARGEST BEST VARIETIES

All Buntings' Dwarf trees are offered in the best varieties that are available. They are easy to grow and very little care is necessary after the trees are established. A spraying program using all-purpose fruit tree dust or spray is recommended and may be secured at most hardware stores. Try the collection and have your own orchard.

Beautiful in Bloom

Dwarf Fruit Trees are being planted extensively for ornamental purposes on lawns and as accent plants in shrub borders. Their beauty in early spring, while in bloom, add color to the planting design. Relatively easy to spray and care for, they are becoming more popular each year.

DWARF PEACH TREES

There is no better way to use cream and sugar than on the delicious Peaches produced on Buntings' shapely dwarf trees. These trees grow only 6 to 7 feet in height when mature. Caring for a tree of this size is no trouble and fruit is usually produced the next year after planting. The following varieties are available:

Elberta. Large yellow with blush; flesh yellow and firm.

Belle of Georgia. Large white Peach with red cheek.

Golden Jubilee. Large yellow freestone; sweet, tender juicy yellow flesh.

See page 21 for Dwarf Kimbo.

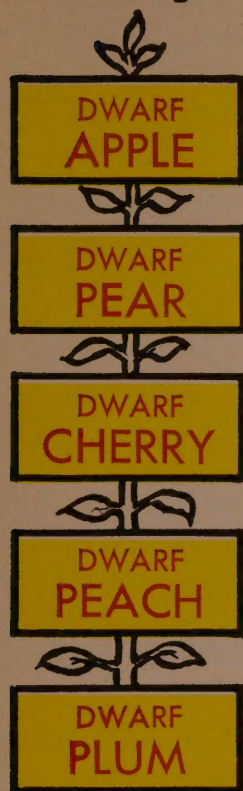

Prices: 3-4 ft. trees, \$3.25 each; 3 for \$9.35.

Buntings' "Quality Controlled" BLUEBERRIES

There is a big market for these delicious Blueberries; they make money from any type of acid soil. Grow in clusters and produce from 5000 to 8000 pints per acre. The berries are easy to harvest and the plants thornless. The plants are very hardy and will last a lifetime, giving bigger yields every year until maturity. The fruit is very delicious eaten directly from the plant, also can be enjoyed from your freezer. You will certainly experience much pleasure by growing your own fresh fruit from our strong plants. Blueberries require an acid soil for best results, normally a pH of under 5.5. If your soil is sweet, use peat moss around the plants. Write us and ask for our free booklet entitled "Cultural Directions for Cultivated Blueberries." Once the right conditions are provided, very little care is needed.

Your choice of JUNE (early) RANCOCAS (midseason) and JERSEY (late). Use two or more varieties to cross-Pollenize for best results.

Delicious Peaches—Red Foliage
Colorful Pink Blossoms

A dual-purpose tree—beautiful as an ornamental, prized for its fruit. Foliage bright red early in spring, dulling to a deep maroon toward fall. Deep pinkish red blossoms in early spring create an exquisite effect, adding a touch of color to your landscape.

Our new Red Leaf Peach produces a full crop of round inch-and-half diameter Peaches; excellent for picking. Fruit has an all-over red coloring; flesh is white with delicious flavor.

Price: 3 to 4 ft., \$1.85 each.

"5 in 1" A FAMILY APPLE TREE

FIVE Leading Varieties On One Tree

Here's the opportunity for those with limited space to have five mighty desirable varieties of Apples, all budded on one tree, for a little more than the cost of one tree. Requires only a 25-foot space when fully grown. Each tree is budded to the following varieties:

YELLOW TRANSPARENT. (First early.)

ANOKA. (Second early.)

YELLOW DELICIOUS. (Fall and winter.)

RED DELICIOUS. (Fall and winter.)

RED JONATHAN. (Fall and winter.)

Famous "5 in 1" Apple Tree

Montmorency

LARGE MONTMORENCY

(Sour) The Leading Pie Cherry

These select record-breaking Montmorency trees develop into uniform, shapely specimens bearing heavy crops of very large fruit.

Fruit large, firm, ships perfectly. Bears very young, produces tremendous money-making crops and is successful everywhere.

Fruit Growers Consider This the Finest Pie Cherry In Cultivation

Because of its distinctive snappy flavor, delightful in pies and preserves.

Cherries

Outstanding SWEET CHERRIES

For best pollination results, be sure to plant two varieties.

✓ **NAPOLEON.** Light lemon-yellow tinged with red. Late June.

✓ **GOVERNOR WOOD.** Light yellow with red cheek; tender, rich, delicious; very fine; large, roundish, June.

✓ **YELLOW SPANISH.** Ripens early in June. Fruit large, color yellow. Tree vigorous grower.

SWEET CHERRY PRICES:

(Per Tree)

5 to 6 ft. trees, \$3.00 each; 10 or more, \$2.55

4 to 5 ft. trees, \$2.65 each; 10 or more \$2.40

3 to 4 ft. trees, \$2.25 each; 10 or more, \$2.00

Fruit growers interested in planting trees in large numbers, write for special prices.

RED PIE CHERRIES

✓ **ENGLISH MORELLO.** (Sour.) Tree small, round-headed, with distinctly drooping branches. Fruit three-fourths of an inch in diameter, color dark red. Flavor tart, good quality, excellent for preserving and pies. Freestone. Ripens in July.

EARLY RICHMOND. (Sour.) A leading sour Cherry, excellent for pies and preserves. Tree medium size, dense upright-spreading. Fruit three-fourths inch in diameter, color light red, fruit thin-skinned, freestone. Ripens in June.

Black Tartarian

The Best Sweet Cherry BLACK TARTARIAN

The best, most dependable and widely successful of the Sweet Cherries. Its great heart-shaped fruits (rich, dark purple hue) look irresistibly tempting. The sweet mild flavor and rich tang have won it a nation-wide popularity with commercial and home growers.

✓ **EMPEROR FRANCIS.** A newer sweet variety fast becoming a leader among commercial growers. It is one we know you will enjoy growing in your garden. The fruit is yellow with red cheek, later turning darker red. Ripens early July.

SPECIAL CHERRY TREE OFFER COLLECTION No. 190

Varieties include a selection for best pollination, also a real money-saver.

1 Black Tartarian, 3 to 4 ft.

1 Yellow Spanish, 3 to 4 ft.

1 Montmorency, 3 to 4 ft.

1 Early Richmond, 3 to 4 ft.

Buntings' PLUMS For Years of Delicious Fruit

Burbank

✓ **ABUNDANCE.** (Asiatic.) Fruit very large and showy; flesh light yellow, exceedingly juicy, tender and sweet. A good market variety. Ripens the first of August.

✓ **FELLENBERG.** (Italian Prune.) Flesh juicy and delicious. Dark purple with a dark blue bloom, medium size, September.

✓ **BURBANK.** (Asiatic.) Fruit large, dark violet-red, juicy and pleasant. Ripens middle of August. Productive.

✓ **IMPROVED SHROPSHIRE DAMSON.** Medium size fruit, produced in thick clusters or groups. Tree a strong grower and very productive of dark purple colored Plums. October.

✓ **STANLEY.** A very productive variety, considered one of the best by the commercial planters. Fruit is deep purple, excellent flavor and of good size. Ripens extra early.

PRICES OF PLUM TREES: (Per Tree)

5 to 6 ft. trees, \$2.55 each; 10 or more, \$2.05.

Nationally Known PEACH TREES

PRACTICAL VARIETIES OF GREAT MERIT

Elberta

Belle of
Georgia

Golden
Jubilee

ELBERTA. The Standard of Excellence! Everyone is familiar with the old reliable Elberta. Its attractive appearance, large size, uniformly shaped fruits are well known throughout the world. Universally planted—Elberta leads all other Peaches in number of trees producing fruit. Most popular Peach on the market. Ripens midseason; roundish with a pointed tip, thick skin, flesh yellow stained pink near the pit; juicy, firm but tender, good quality freestone.

REDHAVEN. A Real Treat to Taste and See! EXTRA EARLY, BRILLIANT COLOR, FINE FLAVOR AND GOOD SHIPPER. Perfect freestone, medium to large in size, flesh yellow, fine textured, sweet, good quality. Smooth skin, almost fuzzless; brilliant red color, with creamy yellow background.

O'BOY. A round and perfectly shaped Peach with a glowing red color blushed all over with dark red even before ripe. Flesh rich orange and bright red around the pit. Very firm flesh and skin. Bears a heavy crop of freestone fruit when three years old.

SULLIVAN'S EARLY ELBERTA. An early ripening bud sport of Elberta. Size, color and shipping qualities identical with Elberta, but ripens about ten days earlier. A splendid all-purpose Peach.

GOLDEN JUBILEE. The Beau Brummel of Peaches. Unusually hardy, resists excessive cold; a sure cropper after severe winters and heavy frosts. Medium to large in size, ripens almost four weeks ahead of Elberta, considered one of the best early ripening varieties. Fine flavor, yellow freestone.

BELLE OF GEORGIA. A popular White Peach. Large, attractive, white Peach with red cheek. Delicious flavor; one of the best market varieties. Very hardy, easy to grow. Belle ripens midseason; large size, freestone. The best white Peach of its season.

HALEHAVEN. A Premium Peach for Every Commercial Orchard. Ripens Two Weeks before Elberta. This marvelous new Peach, an introduction of the Michigan State Experiment Station, is a cross between the famous South Haven and J. H. Hale. Extremely high color before ripening; withstands cold temperatures; very hardy; heavy bearer. Perfect freestone; yellow fleshed.

J. H. HALE. Here's Real Quality in Peaches! Freestone. The skin is deep crimson, smooth, tight almost without fuzz. Fruit is large, round, firm, golden yellow, sweet and melting; quality excellent. Ripens just before Elberta. A very good one!

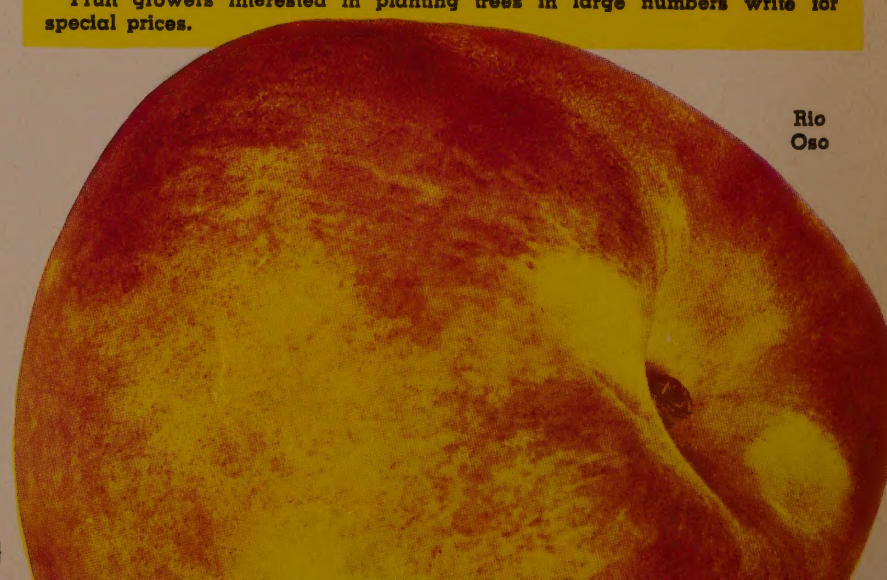

RIO OSO GEM. Popular, Large, Colorful, Freestone Peach. An excellent late yellow freestone Peach, ripening about a week after Elberta. Fruit large in size with brilliant red color. The flesh is firm and fine textured, with excellent flavor. Because of its firmness of flesh, it is particularly recommended for freezing, canning, etc.

M. A. BLAKE. Introduced by the N. J. Experimental Station. A large attractive red color blushed with yellow all over. Has firm and excellent flavored flesh. The trees are very good growers and fruit is highly desirable.

The New Superior PEACH

KIMBO

PLANT PAT.
No. 1647

The ULTIMATE in All You Desire in a Peach!

Order Now — Enjoy All These New Features

This sensational new Peach really has quality. A kind of quality that will skyrocket the name KIMBO to the top of every fruit grower's preferred list.

In our opinion this variety is destined to become one of the favorites for commercial use and therefore is worthy of a place in the home garden.

KIMBO bears very large, uniform and juicy Peaches. The flesh is deep yellow covered with thin skin of light yellow combined with purplish red splashes. A late freestone variety that begins ripening about ten days after Elberta begins to ripen, a time when the fruit is appreciated.

Productivity is extremely heavy and fruit hangs almost as tightly in the soft ripe stage as when firm ripe. Just try it—we know it will please you. The exposed part of the Peach carries an unbelievable deep purple-red brilliance catching the eye and, best of all, the market's top dollar.

News Flash! - Now **DWARF KIMBO**

If you have limited space in your garden or desire to have a peach orchard in a small area, we would suggest that you try this quality peach in the dwarf size. It is the same high quality peach as the regular variety which we have described above but on a space saver miniature tree. You may pick the same size fruit very easily without the use of ladders and spraying can be easily done with a small hand sprayer from the ground.

DWARF KIMBO PRICES: 3 to 4 ft., \$3.50 each; 3 for \$9.95.

Plant Two or More
To Cross Pollinate.
A Third Variety
Should Be Used
with Bartlett
and
Seckel.

Here Are KIMBO'S Superior Advantages

- Unusual reddish purple brilliance.
- Large size, delicious, juicy fruit.
- Fruit holds well when soft ripe.
- Excellent resistance to brown rot.

NUT TREES - Fruitful and Ornamental

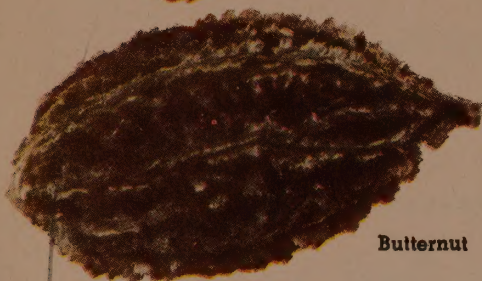

New Hardy Type PECANS

Strong grower. Very large, thin shelled nuts, easily opened. Trees grow to about 40 feet. **Price: 3 to 4 ft. grafted, only \$4.00 each.**

Hardy Almonds

Butternut

BUTTERNUT

A hardy, fast growing tree useful as an ornamental as well as for its production of nuts. Its deep roots in no way interfere with the lawn. Self-pollinating. **Price: 3 to 4 ft. trees, \$2.00 each.**

CHINESE CHESTNUT

Hardy, fast growing early producing, blight resistant trees bear big, tasty Chestnuts the second or third year after planting. Chestnuts fully as good as native American and larger in size.

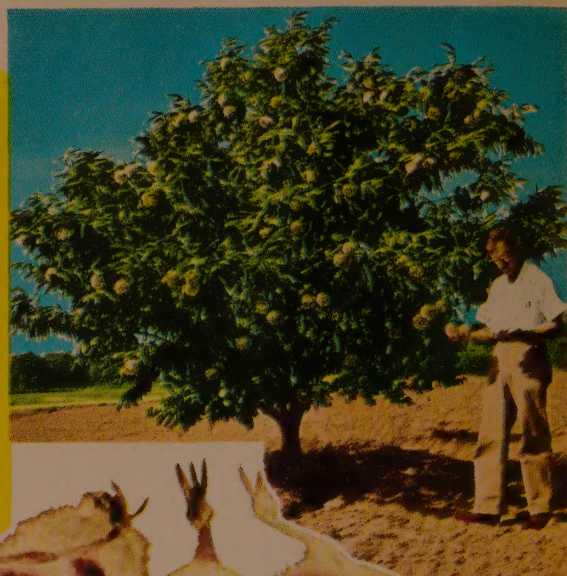

A BEAUTIFUL ORNAMENTAL TREE!

In a short time it becomes one of the most beautiful trees on your place and you'll look forward to each fall harvest of delicious nuts.

2 to 3 ft. Strong Trees

Only \$2.50 Each

To be assured of best results plant two for cross pollination. **2 for \$4.75.**

Chinese Chestnut
Fruitful and decorative variety

HALL'S HARDY ALMONDS

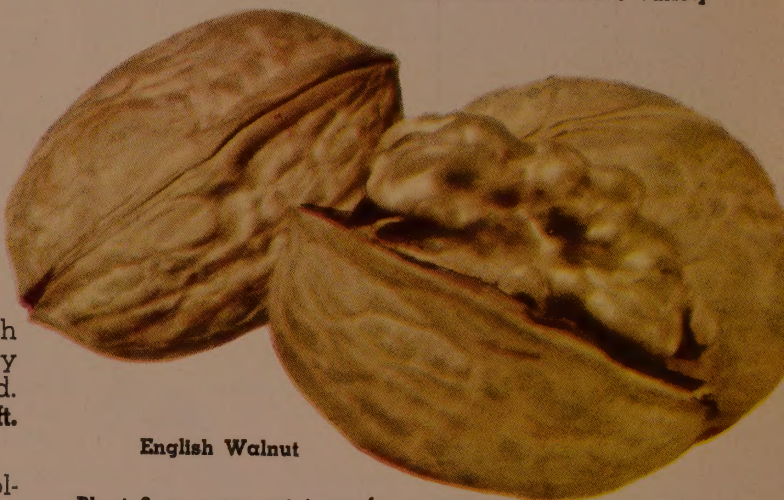

A wonderful tree producing nuts in about 3 to 4 years. Beautiful pink blooms appear in spring adding greatly to its ornamental value. Plant two or more for best pollination results. **Prices: 3 to 4 ft. trees, \$3.00 each; 2 for \$5.50.**

ENGLISH WALNUT

For Beauty and Productivity!

A fine, lofty growing tree with handsome spreading head. Very hardy, will stand extreme cold. Produces abundantly. **3 to 4 ft. grafted trees, only \$4.00 each.**

Plant two or more for best pollination results. **2 for \$7.75.**

English Walnut

Plant 2 or more nut trees for proper pollinizing and best results.

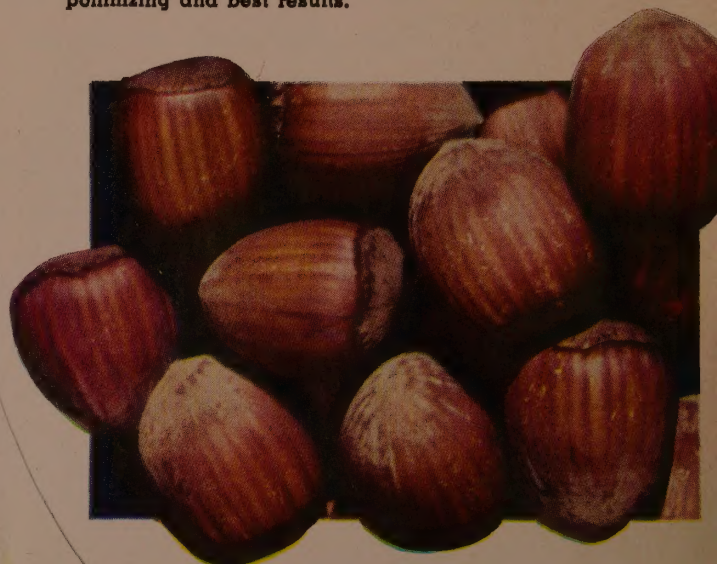

THOMAS BLACK WALNUT

A strong growing tree to about 30 to 40 ft. Produces many bushels of fine quality nuts in a few years. Allow about 40 ft. for this lovely addition to your landscape. **3 to 4 ft. grafted trees, \$4.00 each.**

You Can Always
DEPEND
on Bunting
Quality

Black Walnut

FILBERTS (Hazelnuts)

Inclined to grow in bush form to medium height. Very tasty nuts are produced early and tree is valuable as an ornamental. Self-pollinating and hardy. **Price: 2 to 3 ft. trees, \$2.50 each.**

EVERGREENS and Broadleaf

The Aristocrats of the Evergreen Family

Extra Heavy, 3 Year, Field Grown Plants

Now — The Ever Favorite AMERICAN HOLLY

The familiar Christmas Holly. Very attractive, dark green, spined leaves throughout the year; the red berries are formed in clusters in late fall and hang on throughout most of the winter months. A slow growing pyramid shaped tree, excellent for lawn planting. Price: 12 to 18 in., \$2.00 each.

Pfitzer Juniper

THE POPULAR JUNIPER

PFITZER JUNIPER. Broad, bushy, with gray-green branches. The most popular of the spreading Junipers. Price: 12 to 15 in., \$2.25 each.

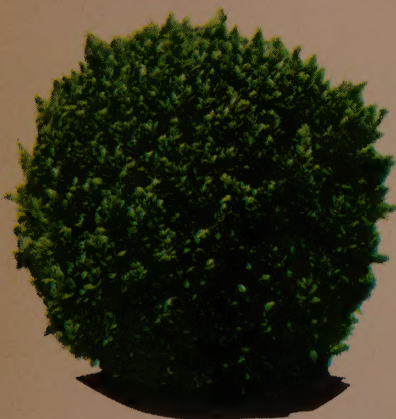

Azalea Hinodegiri

AZALEAS

AZALEA HINODEGIRI. The most widely planted and, of course, the most popular of all evergreen Azaleas. Its attractive deep green foliage and bright scarlet blooms add the finishing touch when used between other evergreens in a foundation planting around your home. Prices: Both varieties, 6 to 8 in. well shaped plants \$1.85 each; 2 for \$3.40.

AZALEA, SNOW. Another evergreen Azalea of pure white that gives a lovely contrast against the deep green leaves. Prices: Both varieties, 6 to 8 in. well shaped plants, \$1.85 each; 2 for \$3.40.

CORAL BELLS. This evergreen variety is very popular. It produces a lovely shade of brilliant coral pink. Excellent to blend with other background shades. Price: 6 to 8 in. plants, \$1.85 each; 2 for \$3.40.

DWARF ENGLISH BOXWOOD

This is the round-leaved, slow-growing, compact Boxwood frequently found on old estates along the East Coast. Specimens over one hundred years old are still the pride of many of the famous gardens. Price: 6 to 8 in., \$1.25 each.

TWO FAMOUS ARBOR-VITAE

If you are partial to Arborvitae, we are offering for you two of the most popular varieties. They will naturally add both beauty and value to your home.

GLOBE ARBOR-VITAE — Very dwarf in growth, round or globe shaped; foliage dark green. Does not require shearing. Price: 8 to 10 in., \$2.50 each.

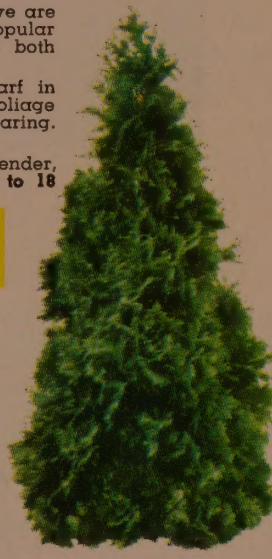

PYRAMIDAL ARBOR-VITAE. Tall, slender, dense dark green foliage. Price: 15 to 18 in., \$2.50 each.

ARBOR-VITAE COLLECTION

One each of the two listed above **\$4.50**

Globe Arbor Vitae

Pyramidal Arbor Vitae

JAPANESE HOLLY (Ilex Crenata Rotundifolia)

A beautiful, slow-growing Broad-leaved Evergreen. Oval, dark green, glossy leaves; blue berries. One of the best dwarf evergreens suitable for foundation plantings. Price: 10 to 12 inch, \$1.95 each.

Japanese Holly

3 YEWS (Taxus)

The Aristocrat of Evergreens

Noted for beautiful dark green foliage and freedom from disease. See illustrations of varieties below. They will definitely add to the beauty of your planting. Especially recommended is the group illustrated here for landscaping each side of your doorway. **Hicks' Upright Yew, Spreading Yew and Upright Japanese Yew,** 12 to 15 in. size, \$3.25 each; 2 for \$6.35.

5 to 6 ft.	.95	9.00	42.50

Lombardy Poplar

JAPANESE MAGNOLIA

Deciduous trees, 12 to 15 feet in height, branched from the ground. Tulip-like flowers in early spring ahead of the foliage. Ideal for use as specimens for lawn planting. Your choice of varieties: **Soulangeana**, pink flowers; or **Liliflora Nigra**, with flowers rose-purple outside and white within. **18-24 in. plants, \$2.50 each. SPECIAL PURCHASE: 2 plants of either color, only \$4.45.**

DOUBLE FLOWERING PEACH

A colorful tree for the spring garden, bursting into blossom two weeks ahead of Dogwoods. Double, long lasting Rose-like flowers cover the twigs, remaining on for 10 days or more. Your choice of colors: red and pink. **Price: 4 to 5 ft., \$2.25 each.**

Double Flowering Peach

The Stately MAPLE TREES

Crimson King Maple

CRIMSON KING MAPLE

(Patent No. 735.) Undoubtedly the very best of all red or deep purple foliaged Maples. In the spring Crimson King bursts forth with this beautiful foliage, and the brilliant color is maintained in the leaves until autumn; it glistens in the sun. Truly the King of all Maples. Hardy, well shaped tree. **Price: 5 to 6 ft., \$5.95 each.**

**Live for
Generations**

Norway Maple
Excellent for estates,
street or garden
planting

Silver Maple — a fast grower

NORWAY MAPLE

Especially suited for street planting and on the grounds of small homes. Symmetrical, dense, round-headed tree. As it makes only a medium size tree, can be used where space does not permit larger growing types. **Prices: 6 to 8 ft., \$5.00 each; 8 to 10 ft., \$6.00 each.**

SUGAR MAPLE

The beauty of nature's fall color is best expressed by this lovely shade tree. Well suited for nearly all landscape purposes. **Price: 6-8 ft. trees, \$5.95 each.**

SILVER MAPLE

Especially popular because of being a fast grower. Light green foliage, silvery underneath. Excellent for broad streets and large home grounds and useful in public parks. **Prices: 6 to 8 ft., \$2.75 each; 8 to 10 ft., \$3.75 each.**

Sugar Maple — Showing coloring at Fall season

Clump Birch

Varieties Not Illustrated

MIMOSA (Silk Tree)

Acacia-like foliage. Low, flat-topped tree, almost umbrella-like. Feathery, fragrant pink blossoms in summer. **Price: 5 to 6 ft., \$3.50 each.**

RUBY TREE — Purple-Leaf Plum

A profusion of blooms in May. Deep bronzy purple foliage through spring months, lighter in color during summer, but attaining brilliant color again in the fall. **Price: 4 to 5 ft., \$2.60 each.**

CUT-LEAF WEEPING BIRCH

Distinguished for its white bark, light green leaves which are finely cut, and its long, drooping branches. **Price: 6 to 8 ft., \$6.50 each.**

EUROPEAN MOUNTAIN ASH

A very attractive, small, hardy tree which bears clusters of scarlet berries from July to winter. **Price: 6 to 8 ft., \$5.00 each.**

3 IN 1 CLUMP BIRCH

Another fine tree of unusual character. Has white bark like the regular Cut-Leaf Birch, plus the added attraction of 3 trunks. A graceful and most effective tree for specimen planting. Maturity height of about 30 feet. **4 to 5 ft. tree, \$4.85 each.**

The Graceful, Cheery **DOGWOODS**

Pink Dogwood

White Dogwood
←

The Dogwoods are probably the most loved of all the flowering trees. They not only provide excellent color in May but the brilliance of their rich red berries highlights the fall season. Yes, these trees give you color in both bloom and berries to say nothing of the leaves which change from green to brilliant crimson in the autumn. Get them started in your yard and enjoy them for many years to come.

Pink Flowering Dogwood.

The blooms are pinkish red creating a pleasing contrast of the two colors. **Price: 2 to 3 ft. trees, \$4.25.**

White Flowering Dogwood.

A cloud of white flowers in May plus red berries and crimson leaves in fall. A pleasing contrast with other green foliage. **Price: 3 to 4 ft., \$3.25.**

Cherokee Chief
Red Dogwood

CHEROKEE CHIEF

(Plant Pat. No. 1710.) Now a truly deep beautiful red color has been found in a Flowering Dogwood. New growth is also bright red, much more than the regular pink flowering type. An excellent grower having all other fine characteristics that have made Dogwoods famous. **Price: 2 to 3 ft., \$4.75.**

Plant *Buntings'* VINES

CLEMATIS, LARGE FLOWERING

Very popular. Profusion of large flowers during summer and autumn. Varieties: **Andre** (red); **Henryi** (white); **Jackmani** (purple); **Ramona** (blue). **Price: 2-yr. vines, \$1.75 each.**

CLEMATIS PANICULATA

Flowers snow-white entire summer and autumn. **Price: 2-yr. vines, \$1.00 each.**

AMERICAN BITTERSWEET (*Celastrus scandens*). Light green glossy foliage; large clusters of orange-scarlet berries retained throughout the winter. **Price: 2-yr. vines, \$1.00 each.**

GOLDFLAME HONEYSUCKLE. Blooms all summer. Showy tubular flowers, flame-red outside, bright yellow inside, borne in clusters. Delightfully fragrant. **Price: 2-yr. vines, \$1.00 each.**

SILVER LACE VINE (*Polygonum auberti*). Very fragrant white flowers during the month of September. **Price: 2-yr. vines, \$1.00 each.**

TRUMPET VINE (*Bignonia radicans*). Orange flowers in midsummer. **Price: 2-yr. vines, \$1.00 each.**

Clematis Jackmani

Clematis Paniculata

Bittersweet

Wisteria

BOSTON IVY (*Ampelopsis veitchii*). Grows very dense. Foliage very healthy. **Price: 2-yr. vines, \$1.00 each.**

Boston Ivy

HALL'S HONEYSUCKLE. White flowers from May until November. **Price: 2-yr. vines, \$1.00 each.**

PURPLE WISTERIA. Purple blooms in great profusion during spring. Fine for porches and trellises. **Price: Strong, 2-yr. vines, \$1.50 each.**

PLANTING INSTRUCTIONS WILL Be Sent With Each Order

Buntings' Protective HEDGE PLANTS

RED-LEAF BARBERRY

Same as the popular hardy-as-an-Oak Green-Leaf Barberry, except the foliage is deep red in the spring and deep purple during the summer months. Popular for planting in clumps, hedges, as well as in foundation plantings.

	10	100
2-yr., 9 to 12 in.	\$4.00	\$30.00
2-yr., 12 to 18 in.	4.50	35.00

GREEN-LEAF BARBERRY

Well known; needs little description. Dark green leaves turn red and yellow in the fall. Thorny bush makes good hedge or specimen plants. Graceful, drooping branches are loaded late in summer with bright red berries that hang on most of the winter.

	10	100
2-yr., 12 to 15 in.	\$3.00	\$20.00
3-yr., 18 to 24 in.	4.00	30.00

MULTIFLORA ROSE

Bull Strong, Hog Tight, Horse High (*Rosa multiflora japonica*). Fast becoming one of America's most popular "living fences" on the American farm. Valuable for lawn planting if cut back each year in February. No additional pruning would be required that year. Produces an impregnable barrier for all livestock within 3 or 4 years. Its density provides a valuable wind-break. Its tight, stock-holding mat of thorns provides an excellent game refuge for wildlife cover, and adds beauty to the farm, producing white blooms profusely in early spring followed with red berries in the fall and winter. See illustration at left. **Prices:** 9 to 12 in. plants, 25 for \$2.25; 50 for \$4.00; 100 for \$7.50; 1000 for \$70.00.

Multiflora Rose

Hedge Rose, Robin Hood

A New, Quick Growing English Type

Hedge Rose, ROBIN HOOD

A beautiful Musk Rose hybrid for use at hard-to-plant locations, or for use to plant undesirable areas. Excellent as a hedge. Dense, Compact plants produce an abundance of healthy, deep green foliage that is completely covered with clusters of brilliant cherry-red flowers. Continues to bloom all summer and fall. A very hardy plant that has withstood temperatures of below zero. The plants pictured are 3 years old and show the vigorous growth and fine blooms. **Prices:** 5 for \$4.50; 10 for \$8.00; 25 for \$17.50; 50 for \$32.50; 100 for \$60.00.

[29]

Spirea Van Houttei Makes a Strong Protective Hedge

SPIREA VAN HOUTTEI (Bridal Wreath)

Beautiful hedge with masses of white flowers in early spring. Grows 6 to 8 feet high. Plant 12 to 18 inches apart. **Prices:** 12-18 in., hedge grade, 10 for \$3.50; 25 for \$7.50; 100 for \$25.00; 18-24 in., hedge grade, 10 for \$4.00; 25 for \$8.75; 100 for \$30.00.

REGEL PRIVET

A low, spreading shrub, prized for its horizontal branching and for its dense foliage which turns to a purple-bronze in the fall. Blooms in June with small lateral clusters of white flowers, followed by little blue-black berries which look like small bunches of miniature Grapes. **Prices:** 12 to 18 in., 75c; 10 for \$7.00; 25 for \$16.25.

AMUR RIVER NORTH PRIVET

Foliage small and attractive. Vigorous and very compact grower. Extremely hardy and will stand the low temperatures of the northern states. Particularly recommended for planting in sections where the temperature drops to zero or below.

CALIFORNIA PRIVET

America's leading hedge plant. Its foliage is of the deepest, richest shade of green and stays on until late winter. Very hardy; easily and quickly pruned.

Hedge Rose, Robin Hood

Buddleia,
Charming

The Famous **BUDDLEIA**

(Butterfly Bush)

Blooms early summer to late fall. Medium height. Weeks of colorful bloom in panicles up to 18 inches long. Fragrance attracts butterflies, giving it the name commonly used.

CHARMING. Long panicles of pink.

ILE DE FRANCE. Purplish blue.

DUBONNET. A dark wine-dubonnet.

Prices: Choice of varieties, 18 to 24 in., \$1.00 each; 2 to 3 ft., \$1.25 each.

FORSYTHIA — GOLDEN BELL

This shrub needs very little description since it is well-known to all. The variety that we are offering is one of the most popular ones producing an abundance of large yellow blooms which are among the first to be seen in the spring at a time when bright color is most welcomed. Price: 1½-2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

There is Nothing in the Garden to Surpass the Beauty of these Selected, Sweetly Perfumed —

Buntings' Superior Assure Landscaping

Spirea Van Houtte

SPIREA VAN HOUTTE

A medium sized shrub covered in late May and June with pure white flowers. Foliage is dark green and fine textured. A plant with many uses, this is a well known, popular shrub. Prices: 18 to 24 in., 90c each; 2 to 3 ft., \$1.15 each.

Golden Bell Forsythia

Congo

Pres. Grevy

Mme. Lemoine

Charles Tenth

Calycanthus

SWEET SHRUB

(Calycanthus floridus)

Often called Strawberry Shrub. Neat, compact, with large leaves and small, double, dark mahogany blossoms with rare fragrance. Blooms May-June with a few blossoms from time to time during summer. Price: 1½ to 2 ft., \$1.00 each.

ALMOND, PINK, FLOWERING

A beautiful small shrub, bearing an abundance of small, double, Roselike flowers, closely set upon twigs, before the leaves appear in early spring. Prices: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

SHRUBS SUCCESS

with the "MODERN" Look

HYDRANGEA OTAKSA

Large blue or pink blooms in mid-summer (color depending upon soil acidity); either color most attractive. Low-growing plant, popularized by the extensive plantings at Atlantic City, N. J. **Price: Strong, 3-yr. plants, \$1.75 each.**

Hydrangea Otaksa

CRAPE MYRTLE

A tall shrub in much demand. A beauty when in bloom during July and August. It is late to start growth in spring, especially after being transplanted. Plenty of water should be used at planting time. Color red. **Price: 2 to 3 ft., \$1.75 each.**

SPRING PLANTING ONLY

HYPERICUM, HIDCOTE

Grows into a twiggy shrub about 18 inches tall and about the same diameter. Throughout the summer it is covered with bright yellow, cup-like flowers about two inches in diameter. During severe winters it sometimes freezes back to the ground, but this doesn't matter because it springs up from the base, producing each summer its masses of blooms. A fine low-growing plant for the foreground in any planting. Flowers are fragrant and appear in late June, continuing until mid-October. **Price: 2-yr. plants, \$1.75 each.**

Hypericum

FLOWERING QUINCE

The popular Cydonia. Literally covered with brilliant double scarlet blooms in early spring. **Prices: 18 to 24 in., \$1.00 each; 2 to 3 ft., \$1.25 each.**

Flowering Quince

CORALBERRY or INDIAN CURRANT

A dwarf shrub which thrives in the shade. The coral colored berries last until late winter, and are produced profusely. **Prices: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.**

POPULAR SHRUBS

(Not Illustrated)

WEIGELA EVA RATHKE — A very popular variety of Weigela very similar to the Vanicelli. Blooms heavily in the Spring with following of blooms also in late Summer and Autumn. **Price: 2 to 3 ft. \$1.25 each.**

WEIGELA ROSEA—A very lovely pink shade of Weigela with same blooming habit as the Eva Rathke variety listed above. **Price: 2 to 3 ft. \$1.25 each.**

RED TARTARIAN HONEYSUCKLE — A very good shrub for use as a specimen plant in your yard or can be used very well to make a hedge to about 4 or 5 feet. The growth is upright with large blue-green leaves, producing an abundance of red flowers in the Spring and later producing red berries for late Summer and Fall color. A plant with a good character for use nearly anywhere. **Price: 2 to 3 ft. \$1.25 each.**

FLOWERING SNOWBALL: This upright grower produces small pure white flowers which arrange themselves in perfectly round clusters resembling a snowball. These clusters will

produce abundantly over the entire plant in June. Grows to a height of about 6 or 7 ft. It is an old very popular variety which we know you will enjoy. **Price: 18 to 24 in. \$1.25 each.**

SPIREA FROEBELI: This shrub grows to about 4 or 5 ft. producing an abundance of rose-pink flowers in June, continuing for the remaining of the growing season. They are excellent for use as a hedge and can be pruned to a formal clipped hedge to about 3 ft. in height. It also makes an excellent informal hedge growing to about 5 ft. with no shearing needed. **Price: 18 to 24 in. \$1.25 each.**

TAMARIX, SUMMER GLOW—The rose, pink blooms produced by this plant give an excellent contrast to the silvery-blue foliage which is also produced on this upright growing type shrub which eventually will reach a height of about 7 or 8 ft. The blooms are feathery in nature and it is truly an unusual type of shrub from most other flowering varieties. **Price: 2 to 3 ft. \$1.25 each.**

Buntings FLOWERING SHRUBS

Althea

ALTHEA (Rose of Sharon)

Upright, very hardy. Color spot of the fall. Begins blooming in early summer and continues through the fall months. Your choice of red, white, pink or blue. **Prices:** 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

ENCHANTMENT MOCKORANGE

(Double.) Produces profuse, long, thick panicles of double white flowers on erect branches in early spring. Sweetly fragrant. Very hardy. **Price:** 2 to 3 ft., \$1.25 each.

New Forsythia

BEATRIX FARRAND

A spectacular new Forsythia originated at the Arnold Arboretum by Dr. Karl Sax. An extremely vigorous grower, making a large symmetrical bush. Deep, golden yellow flowers are over two inches in diameter, and have striking orange markings in the throat. **Prices:** 2-3 ft. plants, \$1.95 each; 2 for \$3.60.

KERRIA

A rather tall, erect growing shrub bearing bright yellow, double flowers throughout the summer. **Price:** 18 to 24 in., \$1.50 each.

Weigela
Vaniceki

WEIGELA VANICEKI

Vigorous growing red Weigela similar in flower and foliage to Eva Rathke. One of the finest red Weigelas. Blooms heavily in the spring, and again there is a fine showing of bloom in late summer and autumn. **Prices:** 1½ to 2 ft., \$1.25 each; 2 to 3 ft., \$1.50 each.

Beautybush

BEAUTYBUSH (Kolkwitzia amabilis)

Completely covered with beautiful cameo-pink flowers during June and July. Acclaimed as the most beautiful flowering shrub. Ideal for planting on the lawn, in the shrub border or any place where a blaze of color is desired.

Prices: 1½ to 2 ft., \$1.25 each; 2 to 3 ft., \$1.50 each.

Kerria

Fabulous ROSES

All Patented Varieties — for Loveliness in form and color

Pink

PINK PEACE (Plant Pat. No. 1759)

Pink Peace is a remarkably fine new Rose; deep dusty pink with huge, luminous, fragrant blooms six inches across, borne on long, sturdy stems. Very double and full cupped. **Prices: \$3.00 each; 3 for \$7.95.**

BLOOM ALL
SEASON LONG

King's
Ransom

KING'S RANSOM

Here is the best yellow rose to come along in a decade! It produces blooms by the dozens. The glittering buds are long and slender — aglow with a pure, true chrome yellow. They open majestically into huge, high-centered, very full, 6-inch blooms that shine like spun gold. These brilliant blooms are borne in tremendous clusters — yet are long stemmed. The plant is lovely, too — with shining green foliage. (P.L.A.F.) **Prices: \$3.50 each; 3 for \$9.30.**

Chrysler
Imperial

CHRYSLER IMPERIAL (Plant Pat. No. 1167)

The bloom produced by this variety is extra large and opens into a velvety maroon-red bloom. The color is held well and very slow to fade. **Prices: \$2.50 each; 3 for \$6.60.**

HAWAII (Plant Pat. No. 1833)

A very definite different color which is always welcome in the rose garden. The fragrance is also unusual. We know that you will want this orange-coral blend in your garden. **Prices: \$3.00 each; 3 for \$7.85.**

Hawaii
